

# Pro-series Remote Confetti System Duty of Care & Instructions

PLEASE READ CAREFULLY: IF CONFETTI/STREAMER LAUNCHER MISFIRES DUE TO NEGLIGENCE, MISUSE OR ABUSE, NO REFUND SHALL APPLY AND KABOOM CONFETTI ACCEPTS NO RESPONSIBILITY.

## To initiate Pro-series Remote controlled launcher(s) - PAIRING & TESTING

1. Simply take out black box (POD) and remove remote control. Leave tubes separate at present. Look at remote control for coloured sticker ensure coloured sticker matches that found on POD
2. Find key (attached to remote control) and insert key into lock on unit, red light should come on, and/or voltmeter should spring to life.
3. Get remote control, fully extend, and press ON or Fire on remote (top button). Second red light on POD should come on, If not press 'off' on remote and press fire again.
4. Repeat this process until remote pairs with POD (second red light switches on).
5. **IMPORTANT** - Press the off button on the remote so ONLY ONE red light is lit. **VERY IMPORTANT!!!**
6. Push antenna back down. This procedure must be done for each and every POD unit you have hired.

## FIRING

1. Grab the the tube/s - REMOVE sticky cap on tube (circle with colour hand written on it).
2. Slide tube into POD unit and attach wire from cannon tube into POD unit. Can only go one way - ensure is fully pushed in.
3. Unit is now live - place where you would like to go and when you are ready to launch simply extend antenna FULLY and press fire. After pressing the fire button hit the off button then fire again, just in case something was blocking the radio signal.
4. Once fired press the off button on remote.
5. Retrieve the POD unit and simply use key to turn units off.
6. Please pack POD back into box.
7. Place long black tube into the recycling or rubbish for collection.

## Points of Attention

1. Never point the launcher at persons, animals objects or powerlines.
2. Be aware of persons around you at all times
3. Do not store near source of heat or in direct sunlight for prolonged periods of time.
