

# Handheld Holi Launcher Loading Instructions

**Loading of holi powder cannon is very simple. We suggest loading your cannons in a separate room before your event and having a damp cloth available.**

- 1. Simply stand cannon with opening facing upwards.**
- 2. Find the scalloped lifting disc and place in empty cannon.**
- 3. Cut open satchel of holi powder and pour into cannon.  
(Two satchels for 80cm units).**  
**You may need to wipe down cannon after this step,**
- 4. Optional step - Separate backing paper from sticky transport seal.  
Place circle over open end of cannon to seal device.**
- 5. Keep cannon pointed upwards and avoid un-necessary movement.**
  
- 6. Read handheld confetti cannon/streamer cannon duty of care /  
instructions and following these.**
